

THE QUICK AND CONVENIENT **ENGLISH** PLACEMENT TEST

- ▶ Tests language skills in new-age and contemporary settings
- ▶ Adapts itself to the test-takers performance
- ▶ Results approximate Common European Framework of Reference Levels (CEFR)

THE MOST UP-TO-THE-MINUTE ENGLISH PLACEMENT TEST

The **GETS Placement** test assesses language skills using new-age and contemporary settings. The test tailors itself according to the test-taker's performance as one progresses through different parts and thus allows for adaptive testing. This quick and convenient placement test caters to a broad band of proficiency levels (CEFR Levels A2 to C1) and uses innovative methods of assessment including video-based items in order to create a non-intimidating, immersive and natural test experience.

The test development is backed by three years of research by QAI, UK and selects questions based on accurate linguistic measurements.

GETS Placement Assesses

Listening: ability to understand acceptable English accents & pronunciation and the complete, accurate and contextual meaning of spoken language dialogues or monologues.

Reading: ability to read everyday texts efficiently and understand their overall meaning as well as detailed meaning.

Spoken English: ability to make suitable grammatical choices and demonstrate awareness of how the context affects the choice words in conversational English.

Written English: ability to make accurate choices of tone, register, grammar, words and expressions in written language.

Lexical Resource: awareness of the form meaning, pronunciation and appropriate usage of words, phrases as well as collocations and idiomatic language.
